Purdue University

Jean- Claude Roegiers
Emeritus, University of Oklahoma

John W. Rudnicki
Northwestern University

Wolfgang Wawersik
Emeritus, Sandia National Laboratory

Mark Zoback
Stanford University

August 10, 2021

Dear Colleague:

On behalf of the ARMA Fellows, it is my pleasure to invite nominations of candidates for induction as ARMA Fellows.

Election to Fellow is recognition of an individual's outstanding achievements in the field of Rock Mechanics. The title of Fellow is granted to selected individuals by their peers, and is evidence of the individual's expertise, judgment, and wisdom, particularly in the field of Rock Mechanics.

A cohort of any five ARMA members may nominate any ARMA member by submitting a nomination package to the Chair of Fellows (bobet@purdue.edu) or to the Executive Director (smeallie@armarocks.org) by October 15, 2021. The package must address, the "Criteria for Fellow Membership" and include the other components identified in the Fellows brochure. All necessary details and the Nomination Package are available at: <https://www.armarocks.org/about/fellows/nomination-process>.

Furthermore, I note that nominations from the general membership, as described above, have been successful in the past! I thank those enterprising nominators, especially.

I, and all the Fellows, encourage you to take time to nominate your deserving colleagues for this important recognition.

Thank you.

Yours sincerely,

Antonio Bobet

Chair of Fellows
